Lavette Light

Our economical reusable multipurpose cloth

Lavette Light is the most economical reusable cloth in the Lavette family. With a lightweight apertured structure, it offers practical cleaning efficiency and dries quickly to maintain freshness between uses. Though designed for shorter reuse cycles, Lavette Light is still machine washable, making it a sustainable and budget-friendly solution for everyday foodservice cleaning. It's ideal for high-turnover environments where cost-efficiency and hygiene are key.

Benefits

Machine Washable

Maintaining high performance while reducing product use and cost-in-use for more sustainable cleaning

Efficient Dirt Pick-up

Unique apertured structure helps you pick up dirt and easily rinse it off

Quick-drying

Apertured design ensures rapid drying, reducing bad odours caused by bacteria growth, and keeping the cloth fresher for longer

Versatile

Suitable for various cleaning tasks, multiple colour-coded options to support HACCP protocols and FCC certified for food contact surfaces

Product Performance

Heat Resistance

Absorption

Strength

Recommended Use

- **Multi-Day Use** - Suitable for repeated use and washing
- **Kitchen Maintenance** - Equipment and appliances
- **Food Preparation** - Food contact areas (cutting boards, utensils) and segregation of raw/cooked ingredients and allergens
- **Surface Cleaning** - Tables and counters
- **Guest Areas** - Hotel rooms and lobbies

Credentials

- **Food Contact Certified** - Safe for cleaning surfaces in food preparation and contact areas
- **Machine Washable** - Internally tested to withstand machine washing while retaining performance and shape
